AND CASING

FLUIDRA

Why choose **Le BANC** by **ASTRALPOOL** 

SAFETY GUARANTEED

Le BANC By AstralPool ensures optimum pool safety. It complies with the **NF P90-308** standard according to the safety system chosen.

For a pool with a width at water level:

- **From 0 to 1.99 m:** the cover does not comply with standard NF P90-308 regardless of the safety system.
- **From 2 to 2.30 m:** the cover complies with standard NF P90-308 only with fabric or ABS safety systems, for attachment to the wall or to the base.
- **≥ 2,30 m :** the cover complies with standard NF P90-308 regardless of the safety system (ABS, fabric or stainless steel), for attachment to the wall or to the base.

Heavy-duty wall- or top-mount clamps close and secure the pool permanently. Once attached, access to the water is not possible*.

Once closed, the cover also protects the pool from impurities such as leaves, pollen and dust, etc.

It also provides a thermal barrier, reducing water evaporation and heat loss.

TECHNICAL AND PRACTICAL BENEFITS

Thanks to its exclusive, made-to-measure design, **Le BANC By AstralPool** can be fitted with a range of configurations to suit every taste:

- **Top finish** in White or 'Wood Effect' PVC only
- **Top and side finish** in White or 'Wood Effect' PVC
- **Plain finish** so that you can customize the bench 100% with the finishes of your choice

A bench with a contemporary design

AESTHETIC, FRENCH MANUFACTURE

For a harmonious exterior, AstralPool offers Le BANC,

an elegant piece of furniture that improves the look of automatic above-ground covers and their bases.

Designed as outdoor furniture, this equipment improves the look of the pool area and completes the layout of any outdoor space. With its contemporary style, Le BANC By AstralPool **blends in perfectly with all outdoor styles**. Made in France, Le BANC **has a custom design**

using top-quality materials. Customized to suit your tastes and wishes, Le BANC offers a lovely space for relaxing around the pool.

** Important : a safety cover is not a substitute for common sense or individual responsibility. It is not intended to replace the vigilance of parents and adults, who still have to be there to protect others, especially young children.*

LE BANC by ASTRALPOOL, COMPONENTS:

AUTOMATIC COVER SLATS

The slats are an integral component of the automatic above-ground cover. They must comply with the standard and be aesthetic and hard-wearing.

2 choices of slat finish: **PVC** or **POLYCARBONATE**. Whatever your choice, they guarantee:

- Standard compliance,
- UV and shock resistance,
- a sleek slat profile and a wide range of colors to match the surroundings,
- excellent buoyancy and a 3-year warranty,
- compatibility with water treatment by salt water chlorinator

Efficiency according to the NF EN 17645:2022 standard

Medium Gray PVC

Gray PVC

White PVC

Sand-colored PVC

First slat with guide roller for rolling on shaft

Translucent Blue/Black Polycarbonate - Translucent Blue Top

Metallic Gray/Black Polycarbonate - Transparent Black Top

Transparent/Black Polycarbonate - Black Top

PVC slats are the first choice; however, thanks to their design **POLYCARBONATE** slats guarantee greater resistance:

- **Shocks**, about 8 times more than PVC (45 mins hailstone test)
- **Temperature**, deformation point (VICAT) at 140° against 80° on a PVC slat
- **With the passing of time**, very good resistance to ageing

POLYCARBONATE slats help HEAT the WATER
